

How to run bioSpectrogram (For Windows)

1. Extract the zip file.
2. Go to "biospectrogram" folder.
3. Double click "biospec.bat".

How to run bioSpectrogram (For Linux/MAC)

1. Extract the zip file.
2. Go to "biospectrogram" folder.
3. Open terminal & change directory to one where you unzipped the biospectrogram.zip
4. Type command "sh biospec.sh" & press enter.

Note

This won't work if you don't have java class path set in your system. Please refer <http://docs.oracle.com/javase/tutorial/essential/environment/paths.html> to do that.
